Atmosphere layers and weather

HUMANITAS
BILINGUAL SCHOOL TORREJÓN

1 Choose the correct words to complete the sentences.

The atmosphere has various layers: the troposphere, the stratosphere and 1 ***three*** / ***six*** outer layers. The 2 ***stratosphere*** / ***troposphere*** is next to the surface of the Earth and is where we live. The next layer is the stratosphere and it contains the 3 ***ozone layer*** / ***shooting stars***. The three outer layers are very thin and you 4 ***can*** /***can't*** breathe the air in them.

2 Are the sentences *True* or *False*?

1 Climate is the natural changes in the atmosphere over a short period of time.

.....

2 Air pressure is how hot or cold the atmosphere is.

.....

3 Humidity is the amount of water vapour in the atmosphere.

.....

4 Precipitation is rain, snow and hail.

.....

Key:

1 1 three 2 troposphere 3 ozone layer 4 can't

2 1 False. 2 False. 3 True. 4 True
